

Advanced 44

Shows **Ca, Ge**

Advanced Yachts describes this new A44 as “aggressive, but elegant . . . like a Ferrari Spider”. She is a racer-cum-weekender, a modern-looking design collaboration between Italians Nauta Yachts and Roberto Biscontini, co-ordinator of the Luna Rossa Design Team. The A44 is sporty and sleek, yet luxurious. She weighs under seven tonnes so should fly around the racetrack, though could be handled by a couple for short cruises. Her modern beachshack-style interior can be open plan all the way to the bow, or the forward end can be closed off to become one large cabin.

**Price ex VAT €600,000 for carbon epoxy version,
€490,000 for vinylester version.**
